

ALUMINUM CAN DROP-OFF LOCATION

For those desiring to see their aluminum cans recycled, a drop-off facility operated by the Iowa Park Friendly Door Senior Citizens' Center will accept aluminum products from the general public as well as its members. The receiving container for the aluminum is located on the south side of the Friendly Door at 810 North Third Street and can be accessed twenty-four hours a day and seven days a week. No premium is paid for any aluminum dropped off at the facility however; proceeds from the sale of those items received at this site help to offset expenses of the Senior Citizens' Center.
